PRI ROBOTICS

PRI Robotics is a leading integrator of robotic systems providing a wide range of productive solutions in manufacturing.

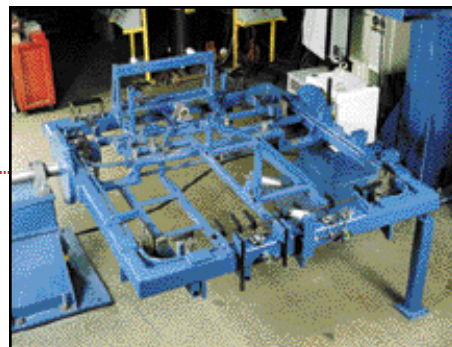

ROBOTIC APPLICATIONS - Arc Welding, Material Removal, Machine Tool Load/Unload, Dispensing, Material Handling, Painting and Assembly.

SYSTEM DESIGN/CAD - State-of-the-art computer design for both robotic systems and fixturing.

INTEGRATION - Build innovative production solutions utilizing the best technology and engineering.

FIXTURING - In-house design and build assures top performance with on-time delivery.

TRAINING & SUPPORT - Customized training before delivery, and follow-up support to assure customer satisfaction.

*Creatively Applying Robotic Technology to Improve
Customer Performance, Profitability and Working Environment*
